Dear Mr. Seehusen:

Re: Transfer, ML 43106 Project, S/003/012, Box Elder County, Utah

On March 18, 1993 the Division received a transfer form for the Small Mining Operation Notice of Intention (SMO-NOI) ML 43106 Project. The transfer form was submitted by Mr. Gary Mullard of Northern Stone Supply, Inc., Oakley, Idaho, as the new operator.

According to Division files, the original SMO-NOI was submitted by you. You were listed as the operator under an agreement with Max Cooper, the lease holder. At this time, the Division considers you as the party responsible for operations at this site and ultimate reclamation.

In order for the Division to officially recognize a transfer, we must have a completed transfer form signed by both the old operator and the new operator. If you wish to transfer responsibility for this operation to the new operator please complete, sign, and date the section of the enclosed transfer form titled "**Current Operator**". Please return the completed transfer form to this office. We will send you a complete copy of the form after the Division Director signs it.

If you have any questions regarding this transfer, please call or write me at the number/address shown above. Thank you for your cooperation in this matter.

Sincerely,

Anthony A. Gallegos  
Reclamation Engineer
